

OUTDOOR FIREPLACES

SEAMLESS CONTEMPORARY STYLE, DESIGNED AND BUILT TO LIVE OUTDOORS.

PALAZZO OUTDOOR GAS FIREPLACE

The Palazzo is a new kind of outdoor fireplace. This innovative fire feature resists the harshest elements with tough marine grade stainless steel. Advanced safety technologies are seamlessly integrated. The Palazzo Power Screen provides protection at the press of a button. Combined, these features create a contemporary focal point that will maintain its luster and add value to your home for years to come.

- The industry-first Power Screen ensures safety, moving up and down at the press of a button to protect and prevent debris from entering the fireplace
- Multicolored LED lights shine through the crushed glass firebed and can even be used when the fireplace is off
- Stainless steel interior reflects and magnifies flames
- Rust-resistant, marine grade stainless steel construction maintains its luster for years to come
- IntelliFire™ Ignition System with wall control constantly monitors ignition and ensures safe functioning
- No chimney or venting required, blending your fireplace effortlessly into your outdoor space
- 48" wide fireplace adds enjoyment to your space
- Available in a single-sided or see-through model

► The Carolina is approved as a standalone unit or can be built into an outside wall. It may be installed in screened porches and lanais that meet these minimum requirements: Minimum porch area - 96 sq ft, Minimum ceiling ht. - 82 inches, A minimum of two walls can be screened but must be open to outside ventilation. Minimum requirements are: Minimum screen area - 64 sq ft, Minimum screen top height - 80 inches. If installed within a wall, you must: Provide access to the gas controls, slope outdoor floor (and hearth) away from fireplace. Flash the perimeter of the fireplace, corners and the fireplace face in a manner consistent with regional practices as required to prevent water penetration around the fireplace or manage water that may penetrate the fireplace.
