heatilator®

The first name in fireplaces

Caliber nXt

direct vent gas fireplaces

Caliber nXt
direct vent gas fireplaces

Authentic Style, Proven Value

The Caliber nXt delivers high-efficiency heating and traditional ambiance. Realistic logs and bold flames fill the large viewing area with a beautiful, roaring fire. Proven Direct Vent technology and the IntelliFire™ Plus Ignition System bolster safety—and heating power. A standard fan helps distribute heat evenly, and multiple fronts and finishes accent any home with style.

- 36" or 42" viewing area

- Textured brick interior enhances flames and glowing embers

- Multiple venting options provide placement flexibility

- Optional Heat Zone kit routes heated air to other areas of the home

IntelliFire™ Plus Ignition System

The IntelliFire™ Plus Ignition System (IPI Plus) is an advanced intermittent pilot ignition system with memory settings and a programmable wireless control. IPI Plus constantly monitors ignition, ensures safe functioning and conserves up to $10/month in energy costs.

To learn more, scan the code with your smartphone, or visit heatilator.com.

Direct Vent Technology

Direct Vent fireplaces remove 100% of combustion exhaust and odors outside of the home. These sealed fireplaces provide optimal heat, conserve energy and ensure clean, safe indoor air quality.

To learn more, scan the code with your smartphone, or visit heatilator.com.

Refractory Options

Choose a standard refractory in traditional or herringbone styles.

Traditional Refractory

Herringbone Refractory

Standard Controls

IntelliFire Plus RC300 The RC300 is specifically designed for use with the IntelliFire Plus Ignition System, and comes standard with the Caliber nXt. This wireless control offers flexibility to either mount on the wall or use as a remote.

Models: RC300-HTL

Features: On/Off, Auto Battery Backup, Pilot Activation, 5 Step Flame Height, Fan Speed (auxiliary 1), two additional Auxiliary Functions, Room Temperature Readout, Thermostat Mode, Timer Mode, Child Lock, Wall Docking Station

Additional Options Not Pictured

• Heat Zone kit
• Gas Conversion Kits
• Mantels and Surrounds

Venting

• Direct Vent: DVP pipe & SLP pipe

Models Available

MODEL	BTU/HR INPUT(NG)	OPENING SIZE
CNXT4236IT/H-C	23,000 - 40,000	36" (914mm)
CNXT4842IT/H-C	25,000 - 45,000	42" (1067mm)

U.S. Efficiencies

Steady State - Since most homeowners use their fireplaces for an extended time while they are in the room, Steady State measures how efficiently your fireplace converts fuel to heat once it is warmed up and running in a "steady state".

AFUE - AFUE rating is more typically used with appliances, like your furnace, that continually cycle on and off to maintain a constant temperature.

| Rating	CNXT4236IT/H-C	CNXT4236ILT/H-C	CNXT4842IT/H-C	CNXT4842ILT/H-C
Steady State	78%	78%	84%	84%
AFUE	65%	67%	66%	68%

Canada Efficiencies

EnerGuide (CSA P.4.1-02) - EnerGuide is a rating used in Canada to measure annual fireplace efficiency.

Rating	CNXT4236IT/H-C	CNXT4236ILT/H-C	CNXT4842IT/H-C	CNXT4842ILT/H-C
EnerGuide (CSA P.4.1-02)	67%	69%	68%	71%

heatilator®

The first name in fireplaces

Limited Lifetime Warranty*
The strongest in the industry, Heatilator provides a limited lifetime warranty on gas-burning products of the most important aspects: firebox and heat exchanger.

*For full warranty details go to heatilator.com.

The information provided in this literature is for planning purposes only and subject to change. Please consult the installation manual for actual installation. Actual product appearance may differ from product images.

Fireplace glass and other surfaces get extremely HOT and can cause severe burns if touched. Do not remove the protective safety screen from the front of the glass. Keep a safe distance away. To learn more visit: www.heatilator.com/fireplacesafety.
